

Planning & Negotiations Division, extended the comment period from October 11, 2001 to October 19, 2001, and the reply comment period from October 23, 2001 to November 5, 2001, finding that the public interest warranted such extension.⁴ On October 17, 2001, however, the Commission announced that any filings due on October 19, 2001 would be extended to October 22, 2001.⁵ CTIA and Motient note that the vast majority of comments were not filed until October 22, 2001, three days after the comment deadline, and that the record already contains over 30 filed comments some of which contain detailed technical appendices and analyses. Accordingly, they argue that the public interest is best served by extending the time for filing comments⁶

3. The Commission's general policy is that extensions of time are not routinely granted.⁷ In certain instances, however, we consider and grant requests for extension of time where we find that the public interest would be best served by a more a complete discussion of the matters pending before the Commission. Considering the recent Commission decision to change filing location for paper documents and the substantial volume of the record in this proceeding, we believe that it is in the public interest for the Commission to develop the most complete and well-delivered record possible. We find that an extension of time is appropriate under the current circumstances. We believe that a limited extension of time appropriately balances the interests of commenting parties without unreasonably delaying the resolution of the proceeding. Therefore, we grant an extension of time for the filing of reply comments from November 5, 2001 to November __, 2001.

4. IT IS HEREBY ORDERED that pursuant to Section 1.46 of the Commission's Rules, 47 C.F.R. § 1.46, the request of Cellular Telephone & Internet Association to extend the deadline for filing comments and reply comments in this proceeding, filed September 25, 2001, is GRANTED to the extent indicated.
